AMEENUDDIN M M | SOFTWARE ENGINEER

+91 6363056373 ameenfff8@gmail.com LinkedIn GitHub Portfolio

PROFESSIONAL SUMMARY

Software Engineer with a strong foundation in **Java, Python, SQL, Object-Oriented Programming (OOP), and Data Structures and Algorithms**. Skilled in backend development, RESTful API integration, database management, debugging, and software testing. Familiar with **Spring Boot, Hibernate, JPA, Git, Linux, and relational databases**, with an understanding of application development, data processing, and system integration. Strong analytical and problem-solving abilities with an interest in developing reliable software solutions for industrial automation, machine vision, AI-powered inspection, and smart manufacturing applications.

Technical Skills

- **Languages:** Java, Python, JavaScript, SQL, PL/SQL
- **Backend:** Spring Boot, Spring MVC, Hibernate, JPA, REST APIs, JSON, OOP
- **Databases:** MySQL, PostgreSQL, MongoDB, SQL Queries, Database Design, Query Optimization
- **Software Development:** DSA, Exception Handling, File Handling, Multithreading, Debugging, Troubleshooting
- **Testing:** JUnit, Postman, Unit Testing, API Testing
- **Tools:** Git, GitHub, Linux, CLI, Maven
- **Web Technologies:** HTML5, CSS3, React.js, Node.js, Express.js
- **Cloud & DevOps:** AWS (EC2, S3, IAM), Docker, Jenkins, CI/CD
- **Core Concepts:** SDLC, Software Integration, JDBC, Technical Documentation, Agile/Scrum

EXPERIENCE

Deal Amaze Solutions **Sept 2025 – May 2026**
Software Development Engineer Intern *Remote*

- Developed full-stack applications using **Java, Spring Boot, React.js**, and **REST APIs** with JWT authentication.
- Optimized **SQL queries** and implemented **JUnit testing**, improving application performance and reliability.

Freelance **Feb 2024 – Jan 2025**
Software Development Engineer *Remote*

- Built scalable **Java/Spring Boot microservices** and REST APIs for high-volume enterprise applications.
- Managed **AWS EC2, S3, IAM** deployments in Linux environments and supported Agile development cycles.

Freelance **Jun 2023 – Dec 2023**
Software Developer *Remote*

- Developed responsive web applications using **Java, Spring Boot, MySQL**, and RESTful APIs for client requirements.
- Implemented **CRUD operations** and automated API data workflows to improve application efficiency and reduce manual work.

PROJECTS

Diabetes Prediction System | Live Demo **Python, Pandas, NumPy, Scikit-learn, Streamlit**

- Developed a machine learning application using **Python and Scikit-learn** to predict diabetes risk based on user-provided health parameters.
- Built an interactive **Streamlit** interface for user input and prediction results, integrating data processing and model inference into a web application.

FlipZone – Scalable E-Commerce Engine | GitHub **Java, Spring Boot, Spring Security, MySQL, REST API**

- Architected a multi-role e-commerce engine using **Spring Boot & JWT** for Customer, Seller, and Admin access control.
- Designed optimized **MySQL** schemas using JPA/Hibernate to manage product filtering, persistent carts, and checkout workflows.

Tagbuch – Multi-Tier Blogging Engine | GitHub **Next.js, Node.js, Socket.io, Express.js, MySQL**

- Developed a full-stack Medium clone featuring real-time direct messaging using **Socket.io** with authenticated WebSocket streams.
- Designed relational database models and optimized backend queries to improve application performance and data management.

DealAmaze – E-Commerce Platform | Live Demo **React.js, Node.js, Express.js, MongoDB, AWS**

- Developed a scalable **e-commerce platform** with product browsing, user authentication, cart management, order processing, and responsive UI using **React.js, Node.js, and MongoDB**.
- Implemented RESTful APIs and optimized MongoDB queries for efficient product and order data management, deploying the application on **AWS EC2**.

GOtruks – Logistics Platform | Live Demo **React.js, Node.js, Express.js, MongoDB, AWS**

- Built a **logistics and transportation platform** for managing truck bookings, shipment requirements, and customer logistics operations using **React.js and Node.js**.
- Developed backend APIs with **Express.js**, integrated MongoDB for booking and user data, and deployed the application on **AWS EC2** for reliable production access.

ACHIEVEMENTS & CERTIFICATIONS

- **AWS Certified Cloud Practitioner** (AWS Academy, 2023) | **Java Full Stack Development** (2023) | **SQL Certification** (Udemy, 2024).
- **Cloud Reliability:** Deployed 5+ cloud-native applications on AWS maintaining **99.5% system availability**.
- **Performance Engineering:** Reduced backend API response latency by **20%+** across services through query optimization and caching.

EDUCATION

GM Institute of Technology **2019 – 2023**
B.E. in Electronics & Communication Engineering *Davanagere, India*
Academic Performance: CGPA 7.6 / 10

Bapuji Polytechnic **2015 – 2018**
Diploma in Electronics & Communication *Shabnur, India*
Academic Performance: 80%

LANGUAGES

English (Professional) | **Kannada** (Native) | **Hindi** (Fluent)
